VOL. XXII.

CLAY CITY, KY., THURSDAY, NOVEMBER 8, 1917

NO. 45

The Election.

The election of County officers Tuesday was a very quiet affair. D. R. Daniel led the Democratic ticket and was elected Judge over T. C. Hall by 150 majority. Close on his heels is I. S. Boone for County Clerk. Two Republicans were elected, Dudley Caillard was elected for Superintendent of Schools over F. P. Tracy by a majority of sixty, and Willie Garrett won out for Sheriff over F. G. Powell by six votes.

It is impossible as usual in this county to get the full vote of all candidates in all the precincts, but is safe to say the Democrats for County officers are all safely in with the exception of Tracy and Powell. Many women participated in the race for Superintendent of Schools, but it is claimed that their vote was about equally divided. The day was an ideal one for November.

The Times would like very much to give the full vote of all candidates but this is impossible. J. A. Sewell, Democrat, was elected Magistrate in the Clay City district without opposition, and S. G. Baker, Republican, was elected Magistrate in the Hardwick's Creek precinct.

Postage Less In County.

Persons writing to friends in the same county do not have to pay three cents on letters as they probably imagine, but two cents, the old rate still prevails when mailing letters at one office in the county to another office in the same county. While it costs three cents postage to mail a letter to Spout Spring, four miles from Clay City, it costs but two cents to mail the same letter to McCormick, (Natural Bridle). The difference being that McCormick is in the county while Spout Spring, though much nearer, is in Estill.

"Indian Summer."

The beautiful sunny bright days of this week are called "Indian Summer." It is also slightly smoky. It is now drier than it has been for weeks, and we are far from a drought. A nice spell of weather at this time of the year is always to be appreciated on account of the fall work that must be done rain or shine.

Moves To Montgomery.

Mr. and Mrs. E. D. Conlee moved Tuesday to Montgomery county. Mr. Conlee voted and then started with his family. We regret to lose these splendid people from our midst, but commend them to the good people of the community in which they have moved.

Bild Dies On Hardwick's Creek.

The little four-year-old son of Mr. and Mrs. John Burgher, of Vaughn's Mill, died in their home Friday morning and was buried in the Well's graveyard Saturday. Mrs. Burgher was formerly Miss Lizzie Bush.

The latest compilations of food prices at Washington show that the average advance over prices before the war is 47 per cent.

Red Cross Sewing Room.

Mrs. Gran Hackworth has donated the use of a room for Red Cross sewing room. Tuesday afternoon was the first meeting to work. Twenty three ladies were present. The room was gotten in order, eight garments cut and two most completed. Many knitters present. We were glad to have Mrs. M. Rose with us, she is quite an enthusiastic knitter, as well as many others. Every one seems anxious to do their part in this work. Our first order of yarn, 50 lbs., is distributed, two bolts of cotton for hospital garments. We have calls for yarn every day and will order more at once. Hope every Branch will get busy and help raise money to pay for this order of yarn. Every one that wants to help at this work, whether member of Red Cross or not, come to sewing room next Tuesday afternoon.

A Bad Piece Of Road.

At the Powell's Valley railroad crossing on the north side there is considerable mud holes caused by the fill of the railroad preventing proper drainage. There is considerable mud there now and as the rains and snow falls there will be more unless the railroad sinks a culvert under the tracks so as to let the water off the road. This piece of road can be drained no other way and the railroad should put in the proper drainage at once so as to let the water get away without so much damage to the county road.

Money To Buy Purebred Stock.

County Agent Howard Harrison has made arrangements with the Clay City National Bank and the Powell County Deposit Bank to supply those persons of the County with money to buy purebred pigs and chickens. This plan has been successfully carried on for some time in other counties and in every instance has proved a success. This plan should serve only as a stepping stone to much greater things in the way of introducing fine blooded animals in cattle and sheep as well as hogs and chickens.

Feed Damaged.

Fodder is not good, the frost having caused much damage to the blades. Indications are also that the yield of corn, while a good one, will not be an extremely large one and high prices, around \$5 and above a barrel is being asked and little selling at the price quoted. Most of the corn is very sappy and not ready to put in crib.

Republicans Gain In Kentucky.

Louisville elected Republican officers Tuesday by 2,250 majority and several Democratic Senators and Representatives in the State were succeeded by Republicans. The election seems to have been a day in Kentucky when the personnel of the candidate was in the lead of politics.

Election Frenzies.

Ohio voted dry; New York State voted woman's suffrage and the Socialists in New York city gained more than 100,000 votes which was an increase of 500. The Socialists ran on an immediate peace platform.

The Importance of Roads.

Road rule the world, says an unknown author, not kings nor conquerors, not courts nor constables, not ships nor soldiers. The road is the only royal line in a democracy, the only legislature that never changes, the only court that never sleeps, the only army that never quits, the first aid to the redemption of any nation, the exodus from stagnation in any society, the call from savagery in any tribe, the high priest of prosperity after the order of malchisedec without beginning of days or end of life. The road is umpire in every war, and when the new map is made it simply pushes on its great campaign of help, hope, brotherhood, efficiency and peace.—Author Unknown.

Local Brevities

Z. T. Conner, of Clark county, is here today on a business mission.

M. C. Wilson and son, of Levee, are in the county buying cattle of various kinds.

Mrs. Sarah Eaton and Mrs. Jas. G. Easter visited relatives at Winchester yesterday.

Judge Luther Loving, true to his home county, came up Tuesday from Lexington to cast his vote.

A. J. Miller, of Winchester, was here last week in the interest of the Cumberland Telephone.

O. W. Easter, who is employed in an Irvine saw mill, came home Sunday to spend a few days with his family.

Any of our adult readers can call at the Times office and get a nice little memorandum book free. It also contains some valuable information.

Mr. and Mrs. Sam Mize, of Akron, Ohio, are here visiting Mr. and Mrs. John W. Mize, at Vaughn's Mill, and the family of A. J. Barnett at Spout Spring.

James G. Easter, one of the most loyal Democrats in the State and a citizen of Powell county, who never forgets its interests, came down from Flemingsburg to vote Tuesday.

The coal shortage is so serious in Central Kentucky that in several of the small cities there was no fuel during the snow storm Tuesday and people shivered in their unheated homes.

Mr. Lafe Stone, of Stanton, stopped with friends in Winchester Monday, enroute to Middleboro, Ky.... Mr. Eaton and daughter, Miss Ruth Eaton, of Clay City spent Monday in Winchester.—Winchester Sun.

Sunday Services.

Sabbath school promptly at 10 a.m. each Sabbath at the United Presbyterian Church. No preaching service next Sabbath. The following Sabbath there will be preaching service both morning and evening.

You will be welcomed at every service.

AN AUTOMATIC BOOKKEEPER

Powell County Deposit Bank Installs New Burroughs Adding-Subtracting Machine To Keep Books.

A real mechanical marvel is the new bookkeeping machine that has just been installed at the Powell County Deposit Bank. The machine is the Burroughs Adding-Subtracting Model and will greatly simplify the work of keeping the bank's books.

One should see this Burroughs in operation to fully appreciate what a wonderful thing it is. It automatically prints dates, subtracts checks, adds deposits and computes balances, all in one movement of the carriage across the page, and with a speed that seems incredible. That is to say, the machine not only posts figures to the larger page, but computes balances automatically as the posting is done.

Error-proof "Steel Brains"

And this automatic bookkeeper can't make a mistake. His "steel brains" are mathematically error-proof. Depressing the keys puts figures "into" the Burroughs. Touching a bar adds or subtracts the figures and prints them in even rows. And no matter how fast or how long you feed figures into it, the machine never gets tired, never lets errors creep in through "brain fag." It has just as lively an appetite for large numbers as for small. As a depositor you might deposit \$10,000,000 tomorrow, but the machine would not have to exert itself to enter the amount, add your old balance, subtract your checks and automatically compute the correct new balance of your account. The only time it balks is when you have an overdraft. Then it warns the operator, by the simple expedient of refusing to figure any more without the "subtract" lever is held down, that your account is overdrawn, and therewith proceeds to print a red "OD" signal opposite the amount you need to get square with the bank.

Heretofore, in posting to the ledger it was necessary for a list of checks and deposits to be entered by hand in order for the bank to properly debit and credit each customer's account. The bookkeeper had to add each list of checks mentally, also had to add all deposits and combine their total with the customer's old balance. When that was done, the total of all the checks had to be deducted from the sum of old balance and deposits to determine the new balance. With the machine all this is accomplished automatically and without any mental calculation whatever. The operator has only to depress the proper keys and touch the operating bar.

Burroughs-posted ledgers have many advantages that even a person who is not familiar with bookkeeping will recognize. As explained, all figuring is handled mechanically, the operator being obliged only to watch the amounts he is entering.

Then, in addition to the speed and economy such a method affords, there is the infallible accuracy.

STANTON.

(By P. O. Derthick.)

Donald Bohannan is home from railroading to stay for a few days.

Mrs. Scott and baby, of Lombard, visited Mrs. Bert Crowe the past week.

Mrs. Lennie Crowe and son, Cecil, are visiting her sister at Paris this week.

A great many people were in town Tuesday to cast their ballot for their candidate.

Mrs. Bert Crow and baby have returned home from a visit to Nada the past week.

Miss Margaret Vance left Wednesday for Winchester to visit her aunt, Mrs. Matrie Baird. W. F. Lyons and wife, of Winchester, visited with Mr. and Mrs. J. W. Williams this past week.

Henry Williams, of Gordonton, was here the first of this week visiting his father, J. W. Williams.

Howard Harrison returned home Tuesday from Lexington and Berea where he visited home folks.

Tunis Robbins, who is clerking in his father's store at Zachariah, was with home folks the past Sunday.

George Frazier, who lay so low for many weeks, has recovered so fast as to move his family to Winchester.

Mr. and Mrs. Fred Ware, and baby, of Winchester, visited with the latter's parents, Mr. and Mrs. I. S. Boone.

Os Johnson, who is working in Lexington, was here the past week mingling among his friends and incidentally to vote.

Dan Milton, of Winchester, and a former citizen of Stanton, was here this past week calling on some of his old friends.

J. H. Hardwick, Charles Spencer, of Winchester, and Floyd Byrd, of Lexington, were here the past week on business.

Mrs. Robert Blackburn has moved from the hotel back to her home and Jouett and Bettie

(Continued on Last Page)

accuring to the use of the machine. The precision with which the internal mechanism operates insures an exactitude heretofore unknown in figure work.

The adaptability of the new machine is another feature of its usefulness. It can be adjusted to an infinite number of combinations. It may be used as an ordinary adding machine, or as a straight subtracting machine. It may be used for posting to the ledger or making out depositors' statements. And figures, whether simple or complicated, are gobbed up and digested with equal facility by the insatiable appetite of its mechanical "works." There is no human being who can list and add a long column of figures at the same time with speed and with absolute accuracy, but the Burroughs does it.

THE TIMES.

J. E. Burgher, : : Publisher.

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 5, 1879.

A HOME-MADE PAPER.

THURSDAY, NOV. 8, 1917.

SUBSCRIPTION RATE,
ONE DOLLAR PER YEAR.

We work ourselves into a frenzy because the Germans sink our ships on the seas and destroy the grain that we seek to ship to our European allies. But German brewers are destroying vastly more grain in America than German submarines are sinking on the sea. We don't get excited about that.

Betwixt the German brewers in America and the German submarines on the high sea, England and France are getting hungry, to say nothing of the Belgians.

There is reason a plenty why we should be at war with Germany, but there are a thousand times more reasons why we should be at war with German brewers on our own soil.

It costs billions of money and will cost seas of blood to beat the Germans abroad. We can beat the German brewers in America without the loss of a drop of blood and make a round profit out of it besides.

By allowing German brewers in America to waste 70,000,000 bushels of grain annually, while our food administrator is sending out pitiful pleas for the conservation of food, turns our entire participation in the war into a ghastly joke.

This editorial is not written by a pacifist, but by a father whose two sons are in the army and who is glowing because he has no more sons to enlist.—The American Issue.

Numerous recipes for preserving pumpkin are being circulated among housewives, but none have been found yet that is superior to preserving it in pumpkin pie.

At Chicago, reports were made to Federal authorities of the finding of several hundred carloads of potatoes, cabbage, onions and sugar beets that had been allowed to rot on the railroad yards railroad detectives assigned to the case assert, to force a higher market.

Police detectives declare they found a hill 25 feet high or more and one hundred feet long, composed of decomposed vegetables recently dumped from freight cars. In the railroad yards they said they found many freight cars bearing no destination ticket and marked "hold spuds." They discovered that in moving the decayed vegetables to the dumping ground the cars were marked "rubbish" and the contents were covered with a thin layer of dirt and sticks.

These fellows have been practicing this for years, and war should have been declared on them years ago, but nothing effective is or will be doing, it seems. A war on these destroyers of food would cost but little, and would cause no blood shed, and be a direct benefit to at least 75,000,000.

PILOT

Mr. Penny Mays has come back to cook for the fire camp again.

Mr. George Howard, of Paris, visited his niece, Miss Bessie Hall, the week end.

Candidates are plentiful up in here, Mr. Fielding Powell and Mr. Tom Hall were here to-day.

Mrs. Ed Bulger, and daughter, returned to their home in Bowling Green, Ohio. We shall miss them.

Mrs. T. A. Hall, Mrs. Marion Mullens, Mrs. Green Kinser and children visited Mrs. D. C. Hall, Sunday.

Mr. Clyde Morefield likes to visit Mr. D. C. Hall's. We wonder why? Perhaps it is the new victrola.

Beech Grove school was closed this week on account of lack of fuel. It seems, no one cares to cut wood.

Mr. Ace Angel, the Radical school teacher, finds Pilot a very interesting place as he visits there quite often.

Miss Kate Bratton, of Ohio,

and her sister, Sarah Stewart, of Fitchburg, Ky., are visiting their uncle, Mr. Sant Hall, this week.

Our teacher is simply delighted. Mr. T. A. Hall cut her enough wood Tuesday to do the entire week. That is much better than dismissing school.

The boys have been hunting some these moonlight nights. Mr. John Kinser's boys have sixteen real live opossums in a box. They will make nice pets.

Mr. Rudell Townsend returned from Camp Taylor, Tuesday to the burial of his father, Mr. Shelt Townsend, who had been ill for some time. He was buried at Ridgewood. The deceased leaves his wife, four sons, and three daughters and a host of friends to mourn his loss.

SLADE.

J. A. Bowen is building a coal dock at Slade.

Sherman Robbins was here on business last Wednesday.

Alvin Forkner, of Stanton, was a business visitor here last Thursday.

Mrs. Nannie Hon and daughter, Bulah, were visiting here Saturday.

Elmer Dyer and J. Baker, of the Cumberland Producing and Refining Company, were business visitors here Monday.

Taylor Adams has returned here and took charge of section and John Burgher was called home on account of illness of his child.

Miss Mila Knox oiled the school house floors Sunday which will be greatly appreciated by the school as the dust is very disagreeable.

Ed Profitt bought 100 acres of land east of Iron Bridge and will build a dwelling house in the old orchard in the near future, about one mile above Slade.

Mrs. Minnie Faulkner lost a steer last week from eating buckeyes. Farmers should take precaution against this, as grass is short and cattle will eat this poisonous nut.

The road leading from Slade to the oil field is being repaired by different men interested on the oil. The yard here is almost full of pipe and other equipments for the different leases.

The rig here belonging to Berry and Parmenter has been removed to Furnace after finding two small wells on Clear Branch. They were wild catting for Ohio Oil Company. Other rigs are expected.

Some of the schools in this end of the county have closed, owing to no wood or coal. Miss Maud Bowen dismissed a few days for want of wood and Miss Regent Snowden has closed her school on North Fork. It looks as if some one is responsible for this and the children should not be cheated out of their rights.

Washington and the District of Columbia are dry for the first time in history. We are praying for God to speed the day when it will be impossible to get whisky anywhere. The cheapest kind now of their poison is \$2.00 a quart and it is so full of poisonous chemicals that it would kill a beast, much less a man, and yet they will drink it.

SPOUT SPRING

Matt Thomas, of Winchester, was here on business last week.

Asa Crow has been ailing some time with a severe throat trouble.

Oscar Barnett went to Middletown, O. last week for a short visit.

Born, Friday, November 2nd, a boy, to Rev. and Mrs. M. C. Van-Cleve.

Mrs. J. J. Tipton, of Irvine, is here with her daughter, Mrs. Moses McKinney.

C. A. Conlee, of Stanton, was here Sunday to see his sister, Mrs. Shelt McKinney.

Rodney Eubank, of Clark county, was here Thursday to purchase a bill of lumber from Shelt McKinney.

Mr. and Mrs. Robert McIntosh visited her folks, Nelson Puckett and family, on Calloway's creek Sunday.

W. J. Christopher, Jr., of Clark county, was here Saturday to see his father, W. J. Christopher, Sr. and other relatives.

Mr. and Mrs. Moses McKinney are rejoicing over the arrival of a new daughter which came into their home Sunday, November 4th.—Edith Cornelia.

R. H. Barnett was married Thursday, Nov. 1st. to Miss Ardell Winburn, daughter of Mr. Harlan Winburn, at the residence of the bride's father near Kimbrell. Squire Shelton McKinney officiated.

The man with the hoe should always be a man with a hog or two.

A Piece of Good Fortune.

In these days of high prices it is refreshing to find one article of nation wide demand that will not cost more than it did last year, and yet will be more valuable than ever.

The Youth's Companion subscription price, \$2.00 will not be increased. The 52 issues of 1918 will be packed full of the best stories by the most popular writers. The editorial page boys' page, girls' page, family page and all the departments will bring a vast amount of cheer, good entertainment and information for every reader in the family circle.

By special arrangement new subscribers for The Companion can also have McCall's Magazine—the fashion authority—for 1918, both publications for only \$2.25.

This two-at-one-price offer includes:

1. The Youth's Companion—52 issues in 1918.
2. All remaining 1917 issues of The Companion free.
3. The Companion Home Calendar for 1918.
4. McCall's Magazine—12 fashion numbers in 1918.

All for only \$2.25.

Where the Trouble Lay.

A few months ago an Italian mission in Washington was pleading for fuel and munitions. Everybody knew it. Also, everybody knew that practically nothing was being done for Italy because the ships were lacking.

The ships were lacking because material and labor was lacking.

Material and labor was lacking, according to the testimony of hundreds of industrial leaders, because drink was cutting the efficiency of labor and preventing its full time effort.

If the French had prohibited the drink trade entirely at the beginning of the war, the Italian disaster would not have occurred.

If Great Britain had prohibited the drink trade a year ago, the Italian disaster would not have occurred.

If the United States had prohibited the drink trade in April, Cadorna would have been at Trieste and Laibach.

The chances that the war will end in 1918 are slowly glimmering out. Unless the nations opposing Germany stop their fooling now and begin to make a full time, one hundred per cent effort, only God knows when it will end.—Methodist Temperance Clip Sheet.

Hargett

W. G. Patrick is paying 38 cents a dozen for eggs.

Merida Judd, of Camp Taylor, is here on a few days furlough.

Mrs. Hester Fraley, of Kimbrell, left last Monday for a visit with her children in Indiana.

Mrs. Cleveland Winburn returned last Saturday from a visit with relatives in Madison county.

Mrs. Stevenson, of Winchester, held services at Dryridge school house last Saturday night and Sunday.

Mr. and Mrs. Sam Mize, of Ohio, came here Sunday and will visit their parents and relatives at Spout Spring.

CUT THIS OUT—IT IS WORTH MONEY

DON'T MISS THIS. Cut out this slip, enclose it with 5c and mail to Foley & Co., 2843 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for bronchial and grippe coughs, colds and croup; Foley Kidney Pills, for lame back, weak kidneys, rheumatism, bladder troubles; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headache and sluggish bowels. You will also receive, free of charge, Foley's Family Almanac, containing "Alphabet for Children" and "Health Hints"; Foley's Booklet on "Kidney Diseases" and a few simple suggestions for those having kidney and bladder troubles. You can secure all these for only 5c.

STANTON.

(Continued from First Page)

Boone have taken charge of the hotel.

Mrs. Henry Tipton and Master Herbert Ruse returned home from Winchester Tuesday where they visited Mrs. Tipton's mother, Mrs. Faulkner.

Mrs. J. S. Ewens was taken sick Tuesday from eating fresh hog meat. It makes the rest of us sick because we can't get it to eat. There is a shortage of nearly 50,000,000 hogs in this country.

John Randell was in Louisville again this past week to see his son, Everett. He says that he is about to get him out of the army so that he can come home and finish teaching out his school on Hatton Creek.

Mrs. M. A. Phillips, of Louisville, arrived in Stanton the past week and will visit her many, many friends before returning home. Mrs. Phillips is always welcome to Stanton and her friends are always glad to see her.

Euben Ewen was thrown from a pony last Sunday and dragged for a long distance, some say a half mile, and was rendered unconscious for several hours. He is much better at this writing but had a very narrow escape from death.

Tilford Abner, of Powell's Valley, was here Tuesday of this week to receive his pension check and to look after some business. We would be glad to have him move back to Stanton again. We can spare some people and some we would rather not.

Mrs. J. W. Baker, and her family, left Wednesday morning for Vancleve, in Breathitt county, where they will make their future home. Mr. Baker has preceded them by several days. We regret to see these good people go from our midst.

Mrs. J. S. Ewen and her daughter, Mrs. Nell Atkinson, with her son, Marion, returned home Sunday night from a week's stay with Mrs. J. L. Oldham at Wolf Coal. They report a splendid time. We rather think it must have been the big time and the fine living they had while there that made Mrs. Ewen sick rather than eating of fresh meat.

The revival meeting will continue all this week at the Presbyterian church. There has never been any better preaching in Stanton than Mr. Giffen is doing. If you want to know how warm or how cold you are in the Christian life then come out and hear him. Some of you are showing what little or no religion you have by your indifference to these services.

As this is written it is too early to tell what the election returns are, but we are assured that Dudley Caudill, of our place, was elected Superintendent of Schools. This is good news to us all as we believe that we have the right man in the right place and that he will make a splendid Superintendent. The other offices seem to be running neck and neck and all have to be heard from before results are known.

Guy Frazier surprised his many friends by taking Miss Ethel Stephens, whom we all know, to Winchester and there before Elder J. W. Harding were united together. We know of no better couple who are so suited for each

other and we trust that they will have a very pleasant journey through life. After the wedding they came up to Stanton and visited Guy's parents and then went to Mt. Sterling and visited his wife's parents, Mr. and Mrs. George Stephens.

It is about time for the Government to conscript labor. It has conscripted the young men, it has conscripted capital, and now it is time for Congress to pass a law authorizing the Government to conscript every man, if necessary, who can do manual labor. Many of them are refusing to "do their bit."

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes:

"From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.
